

Dear FCC,

I am writing to urge that you reject the National Association of Broadcaster's petition 04-160. This petition, if enacted, is a violation of the freedom of speech and counteracts the consumer friendly competitive business environment.

I am a loyal customer of XM satellite radio. I am a sales representative that drives around the Washington, D.C. area and I would not be able to work as efficiently without XM Radio's traffic stations to guide me through the congested streets and highways.

In addition, XM Radio has a variety of programs that are entertaining and content appropriate for myself, my wife, and my children. This variety of service is not available anywhere else over the older traditional airwaves.

Most importantly, I am a subscriber of XM Radio, and I should not be told what I can and cannot listen too. If an American is free to subscribe to a socially unacceptable magazine, website, or service and not be bothered then I should definately be able to pay and listen to what ever type of radio that I want.

Please reject NAB Petition 04-160.

Thank you
